Apl. d. 2.3.17 from the Principal, G.T.A. Press, Mysore.

Requests that the whole printing work of the Univ. may be entrusted to him, and a sum of Rs 15,000 or 20000 be advanced by instalments so that his Press may be equipped on a sufficient scale.

No proposals have yet been received from the Univ. regarding a separate Press for it. It was resolved by the Univ. council at their meeting held on 20.1.17 that a Press was necessary and that steps should be taken to organize one at a cost of about half a lakh at the outset. The paper may perhaps await consideration till proposals are received from the Univ.

The question of establishing a separate press for the University may, if it is submitted, be taken up for consideration when normal conditions are restored and the prices of machinery and other appliances come down to the original level.

It is not made clear if the matter to be get printed each month is too much to be conveniently handled by Private presses. Further there is the fact Pr. Press at Mysore.- Under these circumstances the Registrar may be requested (1) to consult Mr. Yates if the branch Press cannot undertake the work, at least for the next twelve months or so

and (2) if the work cannot be entrusted to any private press

Mysore Government Press,

Bangalore, 21st March 1918.

My Dear Sir,

At the desire of Mr. H. V. Nanjundayya, the Vice-Chancellor of the Mysore University for proposals for the opening of a separate Press for the University at Mysore at the earliest possible date, I have submitted a short note to him with a D.O. communication, Copy of which I beg to send herewith for your kind information. I also send a copy of my report to the Chief Secretary in the matter of printing the University Examn Papers here.

Yours sincerely,

P.G.D'Souza, Esq., B.A., B.L.,
Secretary to Government,
Depts. of Edn. & Agri.

13

My Dear Sir,

Referring to our conversation about the starting immediately of a separate Press for the University, I beg to state that in keeping with the importance and dignity of the University, it is essential that there should be a Press attached to it worth the name and located in the premises of the University Buildings which should be capable of undertaking all University work at present. I would therefore propose that it may be located at one end of the Jubilee Hall, the cellars being used for stocking paper and other requisite materials. The necessary equipment to start work on a modest scale can be got ready by October next provided action is taken in the matter now, and the Press can be put in practically full working order by 1st January 1919 the latest.

I have two Printing Machines on order now and these can be transferred to the University Press while a Cutting Machine, a Hand-Press and smaller machines can be spared either from the Government Press or from the Branch Press. I have only to repeat my order for these to meet the requirements of the Central Press. As for type, all available type in Madras may be bought and shortages replenished by the Government Press to facilitate the beginning of the work in about four months' time. The few Display Types that will be necessary can be cast or bought locally. I can make arrangements for procuring paper as well. I can also arrange for the loan of small stock of paper from the Stationery Depot, pending the arrival from the mills in India as at present. A provision of Rs. 50,000/- for the University Press made in the Budget is I think enough to begin the work almost immediately.

You will therefore see that money and material are ready to hand for the opening of the Press in question. What is now required is the appointment of an Officer of the status of Assistant Superintendent to organise the Press under the advice of a Committee consisting of the Registrar of the University,

the Superintendent of

the Superintendent of the Government Press and the new Assistant Superintendent to advise in the matter. The Officer and the Committee may be appointed from 1st July 1918 and work begun in earnest.

I enclose rough statements showing the Plant and Materials required and the Establishment that would be necessary and the recurring and non-recurring monthly expenditure.

If you approve the outlines of the proposals detailed above, Government may be moved to sanction the scheme early.

Yours sincerely,

(Sd.) D.B.RAMACHANDRA MUDALIAR.

From

D. B. Ramachandra Mudaliar, Esq.,
Superintendent, Government Press,
Bangalore.

To

C. S. Balasundaram Iyer, Esq., B. A.,
Chief Secretary to the Government of Mysore,
Bangalore.

Sir,

I have the honor to report that, in pursuance of Government Order No. G. 12304-7/ G. P. 37-17-3, dated 8th instant requiring me to print the question papers of the Entrance and B. A. Examinations of the first and third years of the Mysore University, I received the papers for immediate execution, - without timely previous intimation, on the 4th instant, i.e., only about a week prior to the Examination. Consequent on this short notice, I had to make expeditious arrangements to print - 44 question papers in about 4 days, working even so late as - - 11 O'clock in the night.

Besides, there is in the Press just now the printing of the question papers of two other important Government examinations, viz., School Final and Local examinations which amount to about 300 question papers, and also the printing of the Munsiff's examination, which may extend to about 50 pages in shape of records etc.

The setting and printing of the papers in general caused a deal of trouble and delay, and in particular the vernacular papers, owing to the transcribers not being appointed for the purpose beforehand, and to the required number of copies of the

several

several papers not being intimated previously. Consequently, the Hindustani and Telugu Munshis and Assistant Professor of Mathematics, Mr. Gopalaswamy Iyengar of the Central College, were requisitioned as per the orders of the Vice-Chancellor for transcribing Persian, Hindustani, Telugu and Tamil respectively; while the number of copies required had even to be guessed and printed in some cases, until definite information could be got, when the copies had to be re-printed to cover the required - number. With such confusion, the papers of the first B. A. examination were however finished in time and were despatched to Mysore, through Mr. Metcalfe, who went to Mysore for the - - University Council meeting on Saturday 9th instant.

I beg to state that this is only a third of the work expected to be done for the ensuing examinations. There is yet two-thirds to be done which may amount to about 80 papers more. Complete information for these two examinations has not yet - reached my hands.

With a view to prevent recurrence of such confusion and inconvenience and to ensure the privacy of the nature of the - work, I beg to propose that the University Authorities may be required to furnish the Press at least a fortnight before the commencement of the printing of the question papers information on the following points:-

1. A time-table or scheme of the examination.
2. Number of copies to be printed in each subject.
3. Number of question papers there are for printing.
4. Name of Officer deputed to supervise the printing.
5. Whether such Officer is authorised to pass the proofs -- finally for print.
6. Who are the persons authorised to transcribe the vernacular papers on Litho transfer paper for the various languages papers to be lithographed.
7. Where and under whose supervision the Sanskrit papers have to be set and printed.
8. Where and under whose supervision the counting and the - -

packing

packing of the question papers have to be done.

9. Have the cloth-lined covers, labels and other materials required for the purpose of packing provided.

10. Name of the Officer in whose custody the manuscript -- question papers, and the non-printed copies of the question papers will remain, while the printing of all the papers is in progress.

I request that better arrangements may be kindly caused to be made in future not only in the matter of giving timely intimation to the Press as to the date on which the printing has to be taken up, but also providing adequate information on the points abovementioned, and also sufficient facilities for printing the papers without having to wait for further instructions, and thus minimise the possibility of any leakage. The Press had to undertake this work in addition to other very heavy works on hand just now, of which, I beg to state, that, you are aware and when especially the Budget Work amounting to 3 to 400 pages is on hand in full swing, besides ordinary works amounting to thousands of pages.

I have the honor to be,

REV. SECT.

3 MAR 1917

To,

The SECRETARY,

Departments of Education and Agriculture,

BANGALORE

Respected sir,

I understand that the University authorities of Mysore are contemplating building a separate University Press.

2. In this connection, I beg to represent as follows:-

(1) To establish a separate Press necessarily involves not only a heavy outlay, but also the maintainance of a large establishment.

(2) On the other hand other Universities in India have entrusted their printing works to private firms in their respective local places - a system advantageous to both the parties.

(3) My Press (The Graduates Trading Association G.T.A.) is very well known and of long-standing in the Mysore City having beem equipped fairly well at an outlay exceeding Rs.12,000/-. Besides I have also undergone training in the Printing Art in the Government Press at Bangalore, and I hope I have been executing the works which have been

been given to me since the last 8 months to the full satisfaction of the University authorities in every respect.

(4) Now therefore, I request you to patronize me with the whole printing work of the University - instead of adopting the proposed scheme, and a sum of Rs.15,000/- to 20,000/- may be advanced to me by installments as the printing requires new - machinery, Types &c., are to be equipped on a sufficient scale to carry out satisfactorily the growing work of the University.

(5) To ensure the repayment of the amount advanced to me, I shall hypothecate to the University my present Printing Office together with the further additions that will be made in future out of the advanced amount. The amount will be regularly - credited from the bills of cost. To secure proper work from me certain conditions shall be made - between me and the University regarding the nature of the transaction.

(6) By granting my request:-

Firstly, the University will secure the advantage of getting all printing without a large investment and establishment charges and also without the trouble of management.

Secondly, you will carry out the policy of the Government which has been encouraging private Presses to improve the condition of the printing industry.

Lastly, by extending me the patronage as the

University printer you will afford me an everlasting support to my business.

3. Under the circumstances, I pray that you may be graciously pleased to bestow this liberal patronage and for the act of your kindness I beg to tender my sincerest gratitude to you and the benign Government.

I beg to remain,

Registrar, Mysore University,

To

P.G. D'Souza, Esq., B.A., B.L.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Departments of Education & Agriculture,
Bangalore.

Sir,

I am directed to forward herewith for the sanction of Government a copy of Resolution of the University Council deciding to organize a separate Press for the University and to state as follows :-

Since the establishment of the University from 1st July 1916, the work of printing is being done at the Government Branch Press and a private press at Mysore. The work, though light in the beginning has been steadily increasing and the Government Branch press has expressed inability to cope with it. Considerable difficulty has therefore been experienced owing to the delay in getting matters printed at that press, due to the fact that the staff is inadequate and the Branch press has to print works of other departments also.

In cases where the Branch press cannot undertake the heavy

heavy works of the University for want of men and materials, the work has to be sent to the Head office, and this invariably involves considerable delay.

In regard to printing at private presses another difficulty presents itself. There are matters which are of a confidential nature and it is considered undesirable to entrust such work to them for various reasons. Moreover private presses cannot be expected to execute the work neatly and in time although a much higher rate is allowed.

To cite an instance in which even the Government Press was unable to meet the requirements of the University. In connection with the question of the recognition of examinations of this University by other Universities, the University of Madras requisitioned for a certain number of copies of the draft scheme, Regulation and Ordinances. Owing to the pressure of work at the Government Press, the required number of copies of the scheme could not be printed and a request had to be made to the Madras University to forego them. There was great delay even in supplying copies of the Regulation and Ordinances. Again not a little difficulty is being experienced just now in getting question papers of the Entrance Examination printed.

In view of these and other considerations, the question regarding the desirability of having a separate press for the University was brought up before the Council at the meeting held on 20th January 1917 and it was decided after careful consideration that a press for the University was quite necessary and that steps should be taken to organise one at a cost of about half a lakh at the outset.

I am to request that you will be so good as to obtain sanction of Government to the Council's proposal as early as possible so as to admit of preliminary steps being taken for the purchase of Machinery etc., and the construction of a building.

I am to add that details of the scheme are being prepared in consultation with Mr. C.H. Yates and the same will be submitted to Government in due course. It would be a great advantage if the University were able to avail itself of the services of Mr. Yates who has kindly expressed his willingness to cooperate in the matter.

A provision of Rs. 50,000 included in the budget of the University for 1917-18 has also been approved by the Senate.

8. Letter No 2624, dated 19th—25th September 1916, from the Offg. Comptroller *re* the system of accounting the University Fund, etc.

Resolved that the rules as finally amended be passed with the modification that there should be only one disbursing officer to operate upon the fund, viz., the Registrar.

9. Mr. Mir. Humza Hussein's Proposition :—

That in the opinion of the Council it is not permissible to the educational officers of the University to send their individual opinions or protests to the Government unless specially called for, regarding resolutions of the Council upon matters relating to discipline and general administration. It is open to them, however, to make individual representations to the Government through the University upon matters relating to their status, pay, promotion and prospects.

The proposition was withdrawn and in the light of this proposition the question of amending the rules of Council Business was taken up for consideration.

Resolved that the Rules of Council business be amended as follows :—

"Any member who dissents from a decision of the Council and express a desire to send a note of dissent may send up a note of dissent within three days after the receipt of the proceedings by him; and the note together with such remarks as the Vice-Chancellor or Chairman of the Council meeting may make therein shall be printed and appended to the proceedings."

Note :—Mr. C. R. Reddy moved an amendment to omit the words "and express a desire to send a note of dissent" within above. It was not seconded.

(2) Substitute the following for rule (7) :—

"Proceedings of Council will be drawn up and circulated to members within a week of the meeting. If any member desires to suggest any correction as to what actually was decided at the meeting, a note should be sent

to the Registrar within three days of the receipt of the proceedings. Such resolutions as have been thus objected to will be placed before the next meeting for confirmation, and other matters will be taken to be finally passed.

Mr. E. P. Metcalfe, B.SC.

1. Report of the Committee appointed to consider the question of the inclusion of Faculties of Engineering and Commerce to the present scheme of instruction in the University.

A. ENGINEERING.

Mr. J. S. Chakravarti considered that it could be proved by figures that such training as was desirable could be best given at a much less cost by instituting a system of scholarships, and that Mysore is a small State where an Engineering College would perhaps be superfluous though on sentimental grounds it might be considered necessary. He suggested that the courses in the Mechanical Engineering School and for the B.Sc. might be so revised as to afford a most efficient preliminary practical training. Selected students could then be sent to Europe, or elsewhere in India to benefit by the training at the best Universities.

Mr. Reddy suggested that, in view of the importance of the question, it was desirable that Mr. J. S. Chakravarti's views should be circulated to members and the question considered at a special meeting of the Council.

Mr. Tait stated that he did not consider that the scheme had been backed by sufficient authority, that the Council had no expert advice and that the opinion of men like Mr. Forbes would be invaluable, and proposed that the question should be brought up at the next meeting. Mr. Reddy in seconding Mr. Tait asked for an adjournment for the consideration of the subject.

Votes were then taken, and there was a majority for taking up the subject at the Council Meeting to be held on the 10th February 1917, Messrs. B. Hanumanta Rau, M. C. Rangaiengar, C. R. Reddy, J. G. Tait, Mir Humza Hussein and J. S. Chakravarti voting for it.

B. COMMERCE

Also postponed for consideration at the next meeting.

2. Appointment of Committees at Mysore and Bangalore to deal with the questions relating to the residence of students of the colleges.

The subject which had been partly considered at the previous meeting was taken up for further consideration.

Resolved—

(*a*) that the hostels be placed under the Committees of seven members each elected by the Council,

(*b*) that the Committees meet at least once in two months and send up their proceedings to the Council,

(*c*) that the Committees should also inspect and supervise the lodgings of non-residential students,

(*d*) that the required licenses be issued by the University (under the Vice-Chancellor's order) on the reports of the Committees and such further inspection as may be deemed proper,

(*e*) that no paid agency is required at present,

(*f*) that the following be requested to form the Committees for the purpose at Mysore and Bangalore:—

1. MYSORE.

1. Mr. C. R. Reddy, (President).
2. Mr. N. S. Subba Rao.

3. Circular letter from the Inspector-General of Education regarding the grant of Foreign Scholarships during the 3 years commencing from 1917-18.

Replies received from the Principals of the two colleges were read and the Council were of opinion that a recommendation be made for the grant of scholarships for the following subjects and be awarded subject to the conditions mentioned below:—

1. Sociology, Politics and Economics.
2. History, Ethnology and Epigraphy.

(*b*) He should enter into an agreement to serve in the University for 5 years at least as Assistant Professor.

(*c*) He must be below 30 years of age.

The Council were also of opinion that the selection of candidates should be left to them and that scholarship amount be given by Government as an additional grant to the University. The value of scholarship should be £200 or £250 a year, with such additions as are usually granted to scholarship holders by Government and should be for such period as may be decided in each case.

If possible, not less than 2 scholarships should be awarded each year.

4. Memorial of Pandit Rama Sastry, Sanskrit Pandit, Maharaja's College, for increase of pay.

With this modification the proceedings were passed.

8. Report of the Committee appointed to consider Mr. J. S. Chakravarti's propositions regarding dress, etc.

Votes were taken. Five voted for, viz., Messrs. J. S. Chakravarti, Thos Denham, M. C. Rangaiengar, C. R. Reddy and Mir Humza Hussein.

Three voted against, viz., Messrs B. Hanumanta Rau, J. G. Tait and M. Shama Rao.—Passed.

The Secretary to Government,

Respected Sir,

Now that the Mysore University Scheme has taken practical shape and actually started work, we venture to presume that the necessity of providing the Institute with printing facilities almost immediately, has already engaged the earnest attention of the Government as well as the Senate, and we beg leave to advance our loyal services in this Connection. Backed by a long experience in the line extending over more than four decades, and conscious of the fact that our endeavours all along to cater satisfactorily to the public taste and needs, have met with uniform success and approbation, we can assure the University of our fully deserving the trust and confidence of that body. We bespeak your indulgence to urge upon your consideration the fact that much of the matter that passes through our Press comprises mostly Government work; and neatness of work coupled with prompt execution has ever been but our byeword.

Needless to add that we hold valuable credentials from eminent Heads of Government departments which wax eloquent on the humble

services we have been rendering to Government, a copy of which we venture to submit for your kind perusal.

In conclusion, we only trust that our present aspiration to further place ourselves at the service of Government by working as "University Printers" will only be taken as legitimate and deserving of support and favorable consideration.

Awaiting your esteemed commands,

Yours faithfully

The only other point we have to notice concerning this Report (Administration Report of the Mysore Police) dealing with ancient times is that it has been printed and published at a native press. The work is very creditable and shows the advance that is being made in this country in printing. It contains several coloured maps which are well executed.

We also note with curiosity the fact that the Report (Administration Report of the Mysore Police) is printed by a native firm—which has no doubt acquitted itself of the task creditably while the Government of Mysore have a press of their own! The Report is made more valuable than it would otherwise be, by the addition to it of coloured maps.

To

SIR M. VISVESVARAYA, L.C.E., M.I.C.E., K.C.I.E.,

DEWAN OF MYSORE,

BANGALORE.

Respected sir,

I understand that the University authorities of Mysore are contemplating building a separate University Press.

2. In this connection, I beg to represent as follows:-

(1) To establish a separate Press necessarily involves not only a heavy outlay, but also the maintainance of a large establishment.

(2) On the other hand other Universities in India have entrusted their printing works to private firms in their respective local places - a system advantageous to both the parties.

(3) My Press (The Graduates Trading Association - G.T.A.) is very well known and of long-standing in the Mysore City having been equipped fairly well at an outlay exceeding Rs.12,000/- . Besides I have also undergone training in the Printing Art in the Government Press at Bangalore; and I hope I have been executing the works which have been given to me since the last eight months to the full satisfaction of the University authorities in every respect .

(4)

46

(4) Now therefore, I request you to patronize me with the whole printing work of the University instead of adopting the proposed scheme , and a sum of Rs.15,000/- to 20,000/- may be advanced to me by instalments as the printing requires new machinery, types &c., are to be equipped on a sufficient scale to carry out satisfactorily the growing work of the University.

(5) To ensure the repayment of the amount advanced to me, I shall hypothecate to the University my present Printing Office together with the further additions that will be made in future out of the advanced amount. The amount will be regularly credited from the bills of cost. To secure proper work from me certain conditions shall be made between me and the University regarding the nature of the transaction.

(6) By granting my request :-

Firstly, the University will secure the advantage of getting all printing without a large investment and establishment - charges and also without the trouble of management.

Secondly, you will carry out the policy of the Government which has been encouraging private Presses to improve the condition of the printing industry.

Lastly, by extending me the patronage as the University Printer you will afford me an everlasting support to my business.

(7) Under these circumstances, I pray that you may be

be graciously pleased to bestow this liberal patronage and for the act of your kindness I beg to tender my sincerest gratitude to you and the benign Government.

(8) A similar Memorial has been submitted to the Registrar of the University.

I beg to remain,

S i r,

Yours most obediently,

K. Ramanarasimhaiya
